## CHAPTER 2 QUALITATIVE DISCLOSURE

### 1. Scope of Consolidation

- (1) Differences between those companies belonging to the corporate group (“Nomura Group”) to which the calculation of consolidated capital adequacy ratio as stipulated in Article 2 of the Consolidated Capital Adequacy Notice on Final Designated Parent Company (the “Capital Adequacy Notice”) published by Financial Services Agency of Japan (“FSA”) is applicable and those companies that are included in the scope of consolidation based on consolidation rule for preparation of consolidated financial statements (the “scope of consolidation for accounting purposes”) and the reason for such differences.

Consolidated insurance subsidiaries are treated as unconsolidated subsidiaries as per Article 3, Paragraph 3 of the Capital Adequacy Notice.

Consolidated VIEs are treated as unconsolidated subsidiaries in calculating our capital adequacy ratio in consideration of the economic substance. Therefore, intra-company transactions with such VIEs are not eliminated and counterparty credit risk arising from those transactions is included in credit RWA (risk-weighted assets) for the purpose of the calculation of our capital adequacy ratio. In addition, any investments by non-VIE Nomura Group entities in the assets under management by such VIEs are captured in RWA for either credit or market risk.

- (2) Number of consolidated subsidiaries, and names and principal businesses of major consolidated subsidiaries of the holding company group

There are 187 companies as of September 30, 2023.

Nomura Securities Co., Ltd (Japan, securities business), Nomura International PLC (United Kingdom, securities business), Nomura Securities International Inc. (U.S.A, securities business), Nomura International (Hong Kong) Limited (Hong Kong, securities business) and Nomura Financial Products & Services, Inc. (Japan, securities business) and others.

- (3) Number of affiliated companies which engaged in financial operations which are subject to the provisions of Articles 9 of the Capital Adequacy Notice, as well as their names, amounts of total assets and net assets shown on the balance sheet, and principal businesses

Not applicable.

- (4) Names, amounts of total assets and net assets shown on the balance sheet, and principal businesses of (i) companies which belong to Nomura Group but are not included in the scope of consolidation for accounting purposes and (ii) companies which do not belong to Nomura Group but are included in the scope of consolidation for accounting purposes.

There are no such companies which fall under (i) above.

As of September 30, 2023, the following companies fall under (ii):

Nomura Reinsurance ICC Limited, (Guernsey, insurance business, total assets of 0.06 billion yen and net assets of 0.06 billion yen);

Nomura Reinsurance 1 IC Limited (Guernsey, insurance business, total assets of 119.6 billion yen and net assets of 2.2 billion yen);

Nomura Reinsurance 5IC Limited (Guernsey, insurance business, total assets of 0.1 billion yen and net assets of 0.1 billion yen);

- (5) Outline of restrictions on transfer of funds or capital within Nomura Group.

In making decision on any transfer of funds or capital within Nomura Group, we make sure that the holding company and subsidiaries of Nomura Group will remain compliant with relevant capital adequacy regulations and it would neither compromise the soundness of respective companies’ operation nor cause negative impacts on their ability to fulfill payment obligations as well as their liquidity profile and profitability.

#### MR4: Comparison of VaR estimates with gains/losses

No trading losses exceeded the 99% VaR estimate (the currently required regulatory backtesting level) at the Nomura Group level for the twelve months ended September 30, 2023.

#### (7) Interest Rate Risk in Non-trading Book

##### (1) The loss in economic value due to interest rate shocks ( $\Delta$ EVE)

As the  $\Delta$ EVE (Economic Value of Equity) estimated for a parallel shift scenario defined in the relevant disclosure rule, as of end of September 2023, is less than 1% of the consolidated Tier 1 capital, it is deemed immaterial and therefore detailed quantitative disclosure is omitted.

##### (2) The loss in P&L due to interest rate shocks ( $\Delta$ NII)

Given the assets and liabilities composition of Nomura Group as described above, the  $\Delta$ NII (Net Interest Income) is immaterial compared with those of commercial banks operating under the general business model whose balance sheets are mostly composed of loans and deposits in the non-trading book, and therefore detailed quantitative disclosure is omitted.

Basel III Template No.	Items	a	b
		September 30, 2023	September 30, 2022
<b>Preferred resolution strategy (1)</b>			
The SPE (Single Point of Entry) resolution strategy is considered to be the preferred resolution strategy for Nomura Holdings and its subsidiaries. More concretely, at the time of a stress, following the relevant authority's determination that one or more of the material sub-groups, i.e. Nomura Securities, Nomura Financial Products & Services and Nomura Europe Holdings have reached the point of non-viability, losses incurred to them would be passed to Nomura Holdings, the ultimate holding company. While this could lead to a resolution of Nomura Holdings, the material sub-groups are expected to continue their business as usual under the Specified Bridge Financial Institution, etc. incorporated by the Deposit Insurance Corporation of Japan (DICJ) to which Nomura Holdings transfers its business.
