1. Half Year Report for the 108th Fiscal Year

[English Translation]

## Half Year Report for the 108th Fiscal Year

From April 1, 2011 to September 30, 2011

To Our Shareholders,

The first half of the fiscal year proved to be very challenging as the economic and financial market turmoil stemming from the eurozone led to adverse business conditions.

While our Retail and Asset Management divisions remained resilient, the Wholesale division had to contend with subdued secondary market trading volumes and stagnant primary market financing activity. As a result, the Wholesale business reported a significant decline in international revenues despite some contribution from our solutions business.

Given that it is expected to take some time to resolve the eurozone crisis, we plan to recalibrate our operations in EMEA and reallocate management resources on a regional basis. In addition, we will increase cost efficiencies and reduce expenses in order to increase revenues in each of our businesses.

We look forward to your continued support.

Kenichi Watanabe  
Director  
Group CEO  
Nomura Holdings, Inc.

The international business in particular reported a decline in revenues. Meanwhile, client flows increased and the solutions business and Japan-related cross-border transactions contributed to revenues.

We will reallocate resources from EMEA to the Americas and Asia while maintaining our global franchise. In addition, we plan to reduce expenses by a total of 1.2 billion dollars in a firm-wide initiative to lower our break-even point.
