## **(2) Analysis of Consolidated Financial Position**

Total assets as of March 31, 2013, were 37.9 trillion yen, an increase of 2.2 trillion yen compared to March 31, 2012, mainly due to the increase in Trading assets. Total liabilities as of March 31, 2013 were 35.6 trillion yen, an increase of 2.3 trillion yen compared to March 31, 2012, mainly due to the increase in Securities sold under agreement to repurchase. Total equity as of March 31, 2013 was 2.3 trillion yen, a decrease of 70.2 billion yen compared to March 31, 2012.

Cash and cash equivalents as of March 31, 2013, decreased by 265.4 billion yen compared to March 31, 2012. Cash flows from operating activities for the year ended March 31, 2013 were inflows of 549.5 billion yen due mainly to the increase in Securities sold under agreements to repurchase. Cash flows from investing activities for the year ended March 31, 2013 were outflows of 160.5 billion yen due mainly to Payments for purchases of office buildings, land, equipment and facilities. Cash flows from financing activities for the year ended March 31, 2013 were outflows of 701.6 billion yen due primarily to a decrease in Borrowings.

## **2. Corporate Goals and Principles**

### **(1) Fundamental Management Policy**

Nomura Group's management vision is to enhance its corporate value by deepening society's trust in the firm and increasing satisfaction of stakeholders, including that of shareholders and clients.

As "Asia's global investment bank", Nomura will provide high value-added solutions to clients globally, and recognizing its wider social responsibility, Nomura will continue to contribute to the economic growth and development of society.

To enhance its corporate value, Nomura places significance on earnings per share ("EPS") and will seek to maintain sustained improvement of the management target.

### **(2) Structure of Business Operations**

Nomura Group's business execution is to focus on business divisions, which are linked globally, rather than individual legal entities, under unified strategy. Nomura Group's operations are comprised of Retail, Asset Management, and Wholesale. Nomura Group shall delegate its powers to each of these business divisions to an appropriate extent and establish its business execution structure by enhancing the professional skills of each of these business divisions, while strengthening linkages among these business divisions and fully demonstrating Nomura Group's comprehensive capabilities.

### **(3) Management Challenges and Strategies**

From April 2013, prior to the U.S. and EU countries, Basel III (the new financial regulations on capital requirement standards for financial institutions) was adopted in Japan and is therefore applicable to Nomura. Further, regulatory reforms with regard to transactions, such as derivatives, have been implemented in a number of countries and are nearing the implementation stage.

In addition, a substantial reform, referred to as “banking reform,” is to be implemented in Europe and the U.S., and the introduction of a financial transaction tax and the integration of banking supervision are being discussed in Europe. Such tightening of the regulations will affect the competitive conditions amongst financial institutions as well as the markets for stocks, bonds and other derivative instruments. Nomura will therefore need to carefully ensure compliance with such regulations.

Since the end of last year, stock markets in Japan, the U.S. and Europe have shown upward trends. However, these trends are supported in large part by the financial policies of central banks, and there is continued uncertainty with regard to whether the global economy will experience a full-scale economic recovery. The concerns about a potential financial crisis have not been dispelled in Europe and signs of an economic downturn can be seen in emerging countries such as China and India. In this uncertain business environment, we will continue to put our efforts into lowering the break-even point by steadily continuing with the implementation of the 1 billion USD additional cost reduction plan that we have been implementing since last year. Further, we will thoroughly review the allocation of management resources.

The Global Markets business within our Wholesale Division was reorganized last December. Additionally, in April 2012, in order to speed up the decision making process, the Fixed Income and Equities businesses were split so each unit had their own management structure. We have integrated them again so that we can respond flexibly to recent changes in the market environment and to provide services and products that meet the needs of our clients in a timely manner.

To achieve our strategic goals, we will implement the following initiatives:

#### **[Retail Division]**

In the Retail Division, we will continue to expand our product and service offerings, which are provided at our branch offices, online or via call centers, to accommodate increasingly sophisticated and diverse client needs. We aim to enhance our investment consultation services and to continue being a trusted partner to our clients by providing high quality products and services that meet the individual needs of our clients.

#### **[Asset Management Division]**

In our investment trust business, we will provide individual clients with a diverse range of investment opportunities to meet investors’ various demands. In our investment advisory business, we will provide value-added investment services to our institutional clients on a global basis. Additionally, we intend to increase assets under management and expand our client base for these two core businesses. As a distinctive investment manager based in Asia with the ability to provide a broad range of products and services, we aim to gain the trust of investors worldwide by making continuous efforts to improve investment performance.

#### **[Wholesale Division]**

The Wholesale Division consists of Global Markets, which offers sales and trading of financial products and origination services, and Investment Banking, which offers a broad range of financial advisory and financing solutions services.

Global Markets is the market related business and covers products related to Fixed Income and Equities.

Global Markets has been focusing on delivering substantially value-added products and solutions to our clients by leveraging Nomura Group's sophisticated trading expertise, intellectual capital in research and structuring, and our global distribution capabilities. We will enhance the integration of redundancies and the efficiency of businesses to maintain a robust management scheme between Fixed Income, which has developed its business globally with a client-centric strategy, and Equities, which has developed a globally competitive position across Asia, Europe and the Americas based on the robust client platform in Japan.

In Investment Banking, we will build a global structure to provide cross-border M&A and financing both in domestic and overseas markets while the globalization of the business activities of our clients continues.

Also in the Wholesale Division, cross-business and cross-regional cooperation are increasingly important to satisfy client needs. In particular, we will focus on the Asia region where further economic development is expected and the footprint of our clients is expected to deepen. In addition, we will focus on regions where we have a competitive edge, including any geographic advantage. We aim to enhance our presence as a global financial services group by enhancing regional integration between Japan and the rest of Asia and enhancing the coordination of business between Asia and the rest of the world.

In implementing the initiatives outlined above, while also helping to strengthen the global financial and capital markets, we aim to bring together the collective strengths of our domestic and international operations to realize our management objectives and to maximize shareholder value by enhancing profitability across our businesses.

#### [Other]

We recognize that it is necessary to further strengthen and streamline our global risk management and we are pursuing a proactive, rather than a reactive, risk management approach. We will continue to develop a system where senior management directly engage in a proactive risk management approach for precise decision making.

As our business becomes increasingly international and diverse, we recognize the growing importance of compliance. We will continue to focus on improving the management structure to comply with local laws and regulations in the countries that we operate. In addition, our executive management will continuously review our existing overall compliance system and rules with high ethical standards to meet the expectations of society and clients toward Nomura Group and will contribute to the further development of the financial and capital markets.

We will continue to strengthen the internal governance system. As an example, we have implemented the reinforcement measures strengthening the independence of our Internal Audit from the executive side, under the business environment which is rapidly changing and highly developed risk management situations. We will further enhance and reinforce our internal control system to gain the trust of clients, stockholders and investors, etc.

On August 3, 2012, Japan's Financial Services Agency issued a business improvement order to our affiliate, Nomura Securities Co., Ltd., regarding the management of corporate related information for public stock offerings. Nomura Securities Co., Ltd. submitted the business improvement letter to Japan's Financial Services Agency on August 8, 2012 and the letter was accepted.

Nomura Securities Co., Ltd. announced improvement measures regarding the method of communication for corporate related information and information control system on June 29, 2012. All measures were implemented by the end of December 2012. We will continue to conduct voluntary inspections and investigations and will reinforce the internal controls structure to regain the trust of the capital markets.

### **3. Consolidated Financial Statements**

The consolidated financial information herein has been prepared in accordance with Nomura's accounting policies which are disclosed in the notes to the consolidated financial statements of Nomura Holdings, Inc.'s Annual Securities Report (the annual report filed in Japan on June 27, 2012) and Form 20-F (the annual report filed with the U.S. Securities and Exchange Commission on June 27, 2012) for the year ended March 31, 2012.

Not applicable.

**(7) Significant Items for Presenting the Consolidated Financial Statements (UNAUDITED)**

**The Scope of Consolidation (Changes in Significant Subsidiaries During the Period)**

In March 2013, Nomura sold 32,040 thousand shares, a portion of its holdings in its consolidated subsidiary, Nomura Real Estate Holdings, Inc. As a result, Nomura no longer maintains the controlling financial interests and Nomura Real Estate Holdings, Inc. has changed from a consolidated subsidiary to an affiliate accounted for by the equity method. Also, due to this sale of shares, total gains for the three months ended March 31, 2013 were 50.1 billion yen which included 38.5 billion yen of unrealized gains from Nomura's remaining shares.
