(2) Simplified accounting and particular accounting in the elaboration of quarterly consolidated financial statements

(3) Changes in accounting basis, procedure and presentation for the quarterly consolidated financial statements

FASB Accounting Standards Codification -

Effective July 1, 2009, Nomura adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification TM ("ASC" or "Codification"). The Codification became the sole source of authoritative generally accepted accounting principles ("GAAP") for the financial statements issued for the interim and annual periods ending after September 15, 2009. Also effective July 1, 2009, any changes to the Codification are communicated by the FASB through an Accounting Standards Update ("ASU"). Accordingly, all GAAP references are now updated in accordance with ASC and ASU.

Accounting for Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock-

Effective April 1, 2009, Nomura adopted ASC 815-40, "Derivatives and Hedging - Contracts in Entity's Own Equity", that provides guidance how to determine if certain instruments (or embedded features) are considered indexed to an entity's own stock ("Contracts in entity's own equity"). ASC 815-40 amends the existing guidance for determining whether a price adjustment mechanism included in an equity-linked financial instrument (or embedded feature) needs to be bifurcated and classified as an asset or liability and be subject to profit or loss recognition based its fair value.

Upon adoption of ASC 815-40, Nomura made certain reclassification adjustments to the beginning balances of Long-term borrowings, Additional paid-in-capital, Retained earnings, and Other assets - Other in order to bifurcate Nomura's call option attached unsecured convertible bonds (the "bonds"), because the certain clauses contained in the bonds were not deemed as indexed to Nomura's own stock pursuant to ASC 815-40.

Accounting for Business Combinations-

Nomura adopted ASC 805, "Business Combinations", on April 1, 2009. Nomura adopted ASC 805 for business combinations for which the acquisition date is on or after April 1, 2009.

Accounting for Noncontrolling Interests-

Nomura adopted the updated guidance for accounting and reporting of noncontrolling interests in financial statements, included in ASC 810-10, "Consolidation - Overall", ("Updated noncontrolling interests guidance") on April 1, 2009. In accordance with this standard, it is applied prospectively from the beginning of the fiscal year in which it is initially applied. However, an exception is that it is applied retrospectively for all periods presented for comparison for presentation and disclosure requirements. Certain reclassifications of previously reported amounts have been made to conform to the current year presentation.

Measuring liabilities at fair value-

Effective October 1, 2009, Nomura adopted ASU No. 2009-05 "Measuring Liabilities at Fair Value" ("ASU 2009-05"). ASU 2009-05 provides valuation methods and hierarchy and clarifies that restrictions preventing the transfer of a liability should not be considered as a separate input or adjustment in the measurement of fair value.

Valuation methodology for investment in certain entities that calculate net asset value per share-

Effective October 1, 2009, Nomura adopted ASU No. 2009-12 "Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2009-12"). ASU 2009-12 permits measurement of fair value of an investment in hedge fund, private equity fund, and other fund on the basis of net asset value per share as a practical expedient, excluding certain situations such as when the investment is probable of being sold at amount different from net asset value per share. ASU2009-12 also provides clarity around how such investments should be classified in the fair value hierarchy.
