

Nomura Asset Management to launch two US stock related ETFs, NASDAQ-100ETF and DJIA ETF

Tokyo, July 27, 2010 — Nomura Asset Management Co., Ltd., one of the largest asset management companies in Japan and a wholly owned subsidiary of Nomura Holdings, Inc., today announced that it will launch two new exchange traded funds (ETFs) that are designed to track the performances of two leading US equity market indexes. These new ETFs are the "NEXT FUNDS NASDAQ-100(R) Exchange Traded Fund" (ticker: 1545) and the "NEXT FUNDS Dow Jones Industrial Average Exchange Traded Fund" (ticker: 1546).

Both of these new ETFs were today approved for listing by the Osaka Securities Exchange ("OSE"). The launch date will be August 13, and the listing date will be August 16, 2010. From the listing date, investors will be able to trade these new ETFs just like ordinary stocks on the OSE through securities dealers and traders in Japan.

To achieve their investment objectives, each ETF will directly hold a portfolio maintaining a correspondence between the composition and weights of the stocks held within the ETF assets and the stocks in their respective index. Hence, the ETFs are designed to provide investment results that generally correspond to the price and yield performance of the respective index, where performances both of the ETF and the index are measured in Japanese yen. The funds may also periodically take minor positions in stock index futures when necessary.

The two ETFs can be subscribed to and redeemed only in cash, pursuant to the relevant Japanese tax regulations.

† "NEXT FUNDS" is the brand name for the ETF product range of Nomura Asset Management Co., Ltd., representing "Nomura Exchange Traded Funds".

Member Associations: The Investment Trusts Association, Japan; Japan Securities Investment Advisers Association

This document is issued for reference purposes to explain the outline of "NEXT FUNDS NASDAQ-100(R) Exchange Traded Fund" and "NEXT FUNDS Dow Jones Industrial Average Exchange Traded Fund" (collectively "The Fund" hereinafter) and does not constitute disclosure material based on the Financial Instruments and Exchange Law. Moreover, this document is not in any way intended to be an investment solicitation. Before investing in the Fund, prospective investors should carefully read the "Securities Registration Statement", "the Prospectus", and the "Document Prior to Conclusion of Contract" under your own responsibilities and based on your own judgment.

Nomura Asset Management Co., Ltd. does not directly handle order requests for the Fund from investors. To invest in the Fund, it is necessary to open an account with a nearby Type-1 financial instruments business provider (securities firm) that handles ETFs and make a request to the broker.

Since the Fund invests primarily in securities, there is a risk that the market price of such securities or the NAV per unit of the Fund could decline and cause an investment loss due to a decline in the stock price index, fluctuations in foreign exchange rates, a price decline in securities comprising the index, the bankruptcy of a stock issuer, or deterioration in the financial conditions of an issuer, in addition to other market factors.

An investor's principal is therefore not guaranteed.

An investor shall bear the following costs when investing in the Fund.

Trading Fee

Trading of the Fund incurs brokerage commission fees set by a Type-1 financial instruments business provider (securities firm) that handles the transaction. These commissions are separate from the actual transaction value. (Because the commissions charged by each securities firm differ, it is not possible to specify a maximum amount.)

Management Fees

The amount of management fees will be an amount calculated according to (I) below plus that calculated according to (II) below daily during the Fund calculation period.

- (I) The management fee will be a percentage of the Fund's total net assets no larger than 0.4725% (0.45% exclusive of taxes) annually (the percentage will be at 0.4725% [0.45% exclusive of taxes] as of August 13, 2010).
- (II) Not more than 42% (40% exclusive of taxes) of loan fees when securities are lent. This will be divided in a ratio of 80 to 20 between the manager and the trustee.

An investor shall bear the management fees above according to the holding period. These amounts will be paid out of trust assets and they are the costs indirectly paid by an investor during an investor's holding period.

Other Expenses

The taxes involved in the Fund, various handling costs for the trust business, the interests for the fund paid by the trustee, brokerage commission fees for transactions in the securities comprising the Fund, various expenses such as audit fees, listing fees for the Beneficiary Interests, and fees for use of benchmark index trademarks, and the sales taxes for each fee. These expenses are paid out each time during an investor's holding period. These amounts will be paid out of trust assets and they are the costs indirectly paid by an investor during an investor's holding period.
