Net revenue for the third quarter was 551.8 billion yen (US\$3.5 billion)¹, increasing 7 percent quarter on quarter and 10 percent year on year. Income before income taxes decreased 1 percent from last quarter and 2 percent compared to the third quarter last year to 135.2 billion yen (US\$862 million). For the nine months to December, Nomura reported net revenue of 1,590.5 billion yen (US\$10.1 billion), up 10 percent from the same period last year. Income before income taxes increased 15 percent to 432.1 billion yen (US\$2.8 billion), and net income attributable to Nomura Holdings shareholders was 288.2 billion yen (US\$1.8 billion), up 7 percent from the same period last year.

“We reported another strong quarterly performance. ROE was 10.3 percent. This is the seventh straight quarter that we have achieved our target range of 8 to 10 percent or more. Pretax income from our four core businesses was the highest in over 18 years, reflecting solid progress toward our 2030 management vision of Reaching for Sustainable Growth,” said Kentaro Okuda, Nomura President and Group CEO.

“In Wholesale, Global Markets delivered a robust performance, underpinned by record-high Equities net revenue, and Investment Banking net revenue reached a new high, driven by increased revenues across all regions.

“Our Banking Division saw steady growth in loans outstanding and investment trust balances, further growing our revenue base.

“This performance is not the result of one-off market factors. It reflects the structural transformation we have achieved through business model reforms. We have strengthened our capacity to generate stable revenue and have moved into our next phase of growth. We will continue striving to enhance our corporate value to meet the expectations of our clients and all stakeholders.”
