

Compliance

Recognizing compliance and conduct risk management to be critical to overall management, Nomura Group has established the “Conduct Program,” a fundamental document that contains the frameworks and initiatives targeting compliance and appropriate conduct. This document is a key part of the Group’s framework for achieving a high level of compliance and conduct risk management that transcends legal compliance.

Compliance framework

All Group companies and departments establish thorough compliance, and establish adequate control frameworks to ensure that their members do not engage in activities suspected of being in violation of laws or regulations. In the event that such issues arise, they are reported to members of senior management and handled appropriately. A Chief Compliance Officer has been appointed to oversee compliance for Nomura Group as a whole. In addition, all Group companies and overseas

regions have a Compliance Officer.
