104th Fiscal Year Third Quarterly Report

To our Shareholders

I am pleased to present you with our business report for the third quarter (October 1, 2007 – December 31, 2007) of the fiscal year ending March 31, 2008.

First, I would like to announce that the dividend for the third quarter will be 8.5 yen per share in accordance with our previously announced dividend policy. This is the same amount as the dividend for the second quarter.

Although there was a drop-off in housing investment, the Japanese economy continued to grow modestly during the third quarter, supported by firm capital investment activity as well as exports. On the other hand, the stock market performed poorly during the quarter, as earnings announcements from financial institutions across the globe have again revealed the severity of the subprime-related problems.

This global financial market turmoil presented us with a difficult business environment during the third quarter. Under accounting principles generally accepted in the United States (U.S. GAAP), we reported consolidated net revenue of 276.1 billion yen, while income before income taxes was 46.1 billion yen and net income was 22.6 billion yen for the quarter. As a result, consolidated return on equity (ROE) was 4.1%.

Stock markets around the world have seen significant declines since the start of 2008, due to heightened concerns about a U.S. economic recession as well as fears that losses related to securitized products may expand. Although financial markets remain unsettled, we expect that recently announced fiscal stimulus measures as well as monetary easing in the U.S. will allow the U.S. and Japanese economies, as well as the rest of the global economy, to resume growth in the second half of the year, and that the Asian economy will also maintain its firmness and continue to expand.

We view the current market environment as an opportunity for change, and believe that by listening closely to our clients and providing services that meet their needs, we can continue to strengthen our domestic client base and expand our profitable business opportunities. At the same time, we will position Asia as one of our main pillars of growth as we make further reforms to our business overseas.

We look forward to your continued support.

February 2008

Nobuyuki Koga

President and Chief Executive Officer

Nomura Holdings, Inc.

Third Quarter Financial Highlights

Net revenue for the third quarter was 276.1 billion yen. Income before income taxes was 46.1 billion yen. Net income was 22.6 billion yen. ROE* for the third quarter was 4.1 %.

* Annualized

Source: Thomson Financial

Domestic Retail

Net revenue was 98.4 billion yen (-4.7% QoQ). Income before income taxes was 28.5 billion yen (-11.5% QoQ).

- Domestic Client Assets declined by 3 trillion yen from the end of September to 81.3 trillion yen due to a downturn in the stock market. However, net asset inflow remained steady at 900 billion yen, while the number of accounts with balance increased to 4.12 million.
- Although turmoil in the global financial markets caused commissions for distribution of investment trusts to decline, we saw strong demand for products that accurately meet clients' potential needs. Moreover, investment trust administration fees and other grew for the twelfth straight quarter. Sales credit increased, partly due to strong sales of Toyota Motor Credit Corporation bonds. Stock brokerage commissions fell, mainly due to the stock market decline.

Global Markets

Net revenue was 103.2 billion yen (+515.8% QoQ). Income before income taxes was 24.4 billion yen.

- In Fixed Income, interest rate and currency-linked derivative trading in Japan and Europe was solid.
- In Equity, stock trading was strong, equity derivative trading in Europe was solid, and revenue from Instinet was firm.

Investment Banking

Net revenue was 20.8 billion yen (+92.0% QoQ). Income before income taxes was 5.7 billion yen.

- During the period, overall domestic equity finance volume declined. However, we acted as lead manager in the large IPO by Sony Financial Holdings and several other deals and retained our high market share. As a result, we ranked number one in the Global Equity and Equity-related (Japan) league table for calendar year 2007, the fifth consecutive year we achieved the number one ranking.
- In M&A, we were financial advisor on the tender offer by Japan Tobacco for Katokichi, and acted as financial advisor in the management integration of TIS and INTEC Holdings. We ranked number one in the M&A league table* for calendar year 2007.

* Source: Thomson Financial

Global Merchant Banking

Net revenue was minus 10.2 billion yen. Loss before income taxes was 12.3 billion yen.

- Unrealized losses and gains booked due to valuation at fair value of certain investee companies in Europe.

Asset Management

Net revenue was 23.2 billion yen (-2.0% QoQ). Income before income taxes was 8.6 billion yen (+12.3% QoQ).

- Although the pace of sales of existing investment trusts slackened, partly due to the global turmoil in financial markets as well as the implementation of the Financial Instruments and Exchange Law, sales of newly-launched funds were generally robust, highlighted by the Nomura New Global High Interest Rate Currencies Fund which saw over 200 billion yen in sales during the quarter. As a result, total assets under management in Asset Management remained virtually unchanged from the end of the second quarter at 29.7 trillion yen.

Other Operating Results

Net revenue was 15.9 billion yen (-56.9%QoQ). Loss before income taxes was 3.4 billion yen.

Nomura Helps Clients Enjoy Retirement Years

At Nomura, we strive to help our clients enjoy fulfilling lives after retirement by providing asset management-related information and advice.

Retirement is a major event in a person's life, and requires careful thought with respect to a number of issues, including household budgeting, medical and nursing care, and inheritance planning.

At Nomura, our asset management philosophy involves allocating money into three categories: money to enjoy, money to grow, and money to protect. We provide our clients with basic knowledge about life planning as well as individualized advice to meet their specific needs.

Nomura Securities Financial & Economic Research Center Celebrates 10 Year Anniversary

Last year, the Nomura Securities Financial & Economic Research Center happily celebrated its 10th anniversary. To celebrate this milestone, the Center has published 3 books (all in Japanese only): "Requisites for Continued Japanese Economic Strength," "The Era of Chinese Money," and "Asset Management Strategies Learned from the Latest in Financial Engineering." Going forward, the Nomura Securities Financial & Economic Research Center will continue to serve as a bridge between the capital markets and investors, and keep its eyes on the future of finance.
