Notes:

1. The requirement for each resolution to be approved is as follows:

A vote in favor by a simple majority of the voting rights held by the shareholders present at a meeting attended by shareholders entitled to exercise voting rights holding in aggregate 1/3 or more of the total voting rights.

2. The method for calculating the Approval Ratio is as follows:

This is the ratio of the total number of votes in favor exercised in advance by the day prior to the meeting and those exercised by the shareholders present at the meeting that the Company was able to confirm an opinion for, to the total number of voting rights of the shareholders present at the meeting (the portion of the voting rights that were exercised in advance by the day prior to the meeting, as well as those held by the shareholders present at the meeting).

(4) The reason why a part of the voting rights expressing an opinion for, against, or abstaining from, the proposal that were exercised by shareholders present at the meeting were not included in the calculation:

By calculating the total number of voting rights exercised in advance by the day prior to the meeting and those exercised by the shareholders present at the meeting that the Company was able to confirm an opinion for or against the proposal, it was evident that, in conformance with the Companies Act, the requirement for the Proposal to be approved had been satisfied and the resolutions were duly adopted. Therefore, the number of voting rights held by the shareholders present at the meeting, which the Company was not able to confirm an opinion for, against, or abstaining from the proposals, were not included in the calculation.

End.
