**Tokyo, January 30, 2020**—Nomura Holdings, Inc. today announced its consolidated financial results for the third quarter of the fiscal year ending March 31, 2020.

Net revenue for the third quarter was 335.0 billion yen (US\$3.1 billion)<sup>1</sup>, down 13 percent quarter on quarter and up 29 percent year on year. Income before income taxes was 69.7 billion yen (US\$641 million). Net income attributable to Nomura Holdings shareholders was 57.1 billion yen (US\$525 million). Diluted net income attributable to Nomura Holdings shareholders per share was 17.63 yen.

For the nine months to December, Nomura reported net revenue of 1,050.4 billion yen (US\$9.7 billion), up 29 percent from the same period last year. Income before income taxes was 273.0 billion yen (US\$2.5 billion), and net income attributable to Nomura Holdings shareholders was 251.5 billion yen (US\$2.3 billion). Diluted net income attributable to Nomura Holdings shareholders per share was 75.65 yen.

“The easing of trade friction between the US and China and progress towards Brexit led to increased client activity this quarter. Compared to the previous quarter, we reported substantially higher pretax income from our three core businesses underpinned by solid Wholesale and Retail performance. Our international business was profitable for the third straight quarter due to our successful initiatives to realign our business portfolio and lower our cost base,” said Nomura President and Group CEO Koji Nagai.

“In Retail, sales of investment trusts and stocks drove growth in total sales amid favorable market conditions. In addition, our efforts last quarter to reassign sales staff and integrate branch offices have positively impacted our business across all client types. Asset Management booked its fourteenth consecutive quarter of inflows and this combined with market factors to push assets under management past 55 trillion yen for the first time ever. Wholesale pretax income was at its highest level in seven quarters, benefiting from stronger revenues in all business lines, most notably Fixed Income, and our continued efforts to control costs.

<sup>1</sup> US dollar amounts are included solely for the convenience of the reader and have been translated at the rate of 108.67 yen = 1 US dollar, the noon buying rate in New York for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2019. This translation should not be construed to imply that the yen amounts actually represent, or have been or could be converted into, equivalent amounts in US dollars.

“We will swiftly work to strengthen our internal control framework and enhance our corporate value in order to build a robust operating platform capable of delivering consistent growth under any environment.”
