Executive summary (2/2)

FY2019/20 4Q highlights

■ Solid business performance through to mid February, but global spread of coronavirus led to financial market turmoil and serious impact on real economy in March; **We focused on ensuring the functioning of the markets while placing the safety of our clients, communities, and employees first**

■ **Net revenue: Y237.5bn (-29% QoQ); Loss before income taxes: Y24.7bn; Net loss¹: Y34.5bn; EPS²: -Y11.31**

■ **Amid historical market turmoil, three segment performance slowed QoQ but remained profitable**

Retail

- Prior quarter momentum continued through mid February, but investor sentiment worsened on market downturn in March
- Income before income taxes up QoQ on results of reformation of sales channels and robust equity trading

Asset Management

- Fifteenth straight quarter of inflows; AuM down approx. 10% due to market downturn
- Gain/loss of American Century Investments (-Y16.4bn) combined to weigh down Asset Management performance

Wholesale

- Heightened volatility and increased client activity led to Rates reporting strongest revenues since April 2010, while FX/EM and Cash Equities also had a strong quarter
- Booked unrealized loss of approx. Y35bn on loan-related positions³

■ **Performance other than three segment declined, impacted by unrealized losses on securities**

Net revenue by region

Key points

Full year

- Net revenue: Y648.6bn (+17% YoY)
- Income before income taxes: Y92.2bn
 - Global Markets net revenue increased 24% YoY driven by strong improvement in Fixed Income revenues mainly from Rates and AEJ FX/EM
 - Investment Banking revenues declined 16% YoY on lower fee pools and unrealized losses in loan-related positions due to downturn in credit market in March
 - Expenses declined 17%: Cost reductions progressing ahead of initial plan; Goodwill impairment charge² and restructuring costs related to realignment of business portfolio booked last year no longer present

Fourth quarter

- Net revenue: Y145.9bn (-22% QoQ; +3% YoY)
- Income before income taxes: Y10.1bn (-77% QoQ)
 - Macro trading businesses such as Rates and FX/EM reported significantly higher revenues QoQ, as did Cash Equities

Fixed Income

- Net revenue: Y78bn (-22% QoQ; +15% YoY)
 - Macro reported significantly higher revenues QoQ driven by Rates in Americas and Japan, as well as FX/EM in AEJ, although significant spread widening in March led to mark-to-market losses in the portfolio particularly for loans

Equities

- Net revenue: Y56.3bn (-7% QoQ; +23% YoY)
 - Cash Equities had a strong quarter facilitating higher volumes on the back of the spike in volatility; Derivatives had a slower quarter in Americas and AEJ, partially offset by strong performance in Japan

FY2019/20 full year and 4Q net revenue by region

(billions of yen)

Full year

- Fixed Income performance improved substantially and Equities revenues grew YoY as business portfolio realignment in April 2019 delivered results, and efficiently monetized client flows and market trend throughout the year

Fourth quarter

- Americas: In Fixed Income, Rates had a strong quarter, but mark-to-market losses were booked for Securitized Products inventory; Cash Equities reported stronger revenues, while Derivatives had a challenging quarter
- EMEA: In Fixed Income, mark-to-market losses booked in Credit and loans; Cash Equities reported higher revenues
- AEJ: In Fixed Income, FX/EM had a strong quarter; In Equities, Derivatives performance declined
- Japan: In Fixed Income, Rates and FX/EM had a solid quarter, but Credit slowed; In Equities, both Cash and Derivatives reported revenue gains QoQ

RWA and CET 1 capital ratio³

Level 3 assets² and Net Level 3 assets/Tier 1 capital

1. Net leverage: Total assets minus securities purchased under agreements to resell and securities borrowed, divided by Nomura Holdings shareholders' equity.
 2. March 2020 is preliminary.
 3. CET 1 capital ratio is defined as Tier 1 capital minus Additional Tier 1 capital divided by risk-weighted assets.
 4. Tier1 capital divided by exposure (sum of on-balance sheet exposures and off-balance sheet items).
 5. Daily average for each quarter.

Funding and liquidity

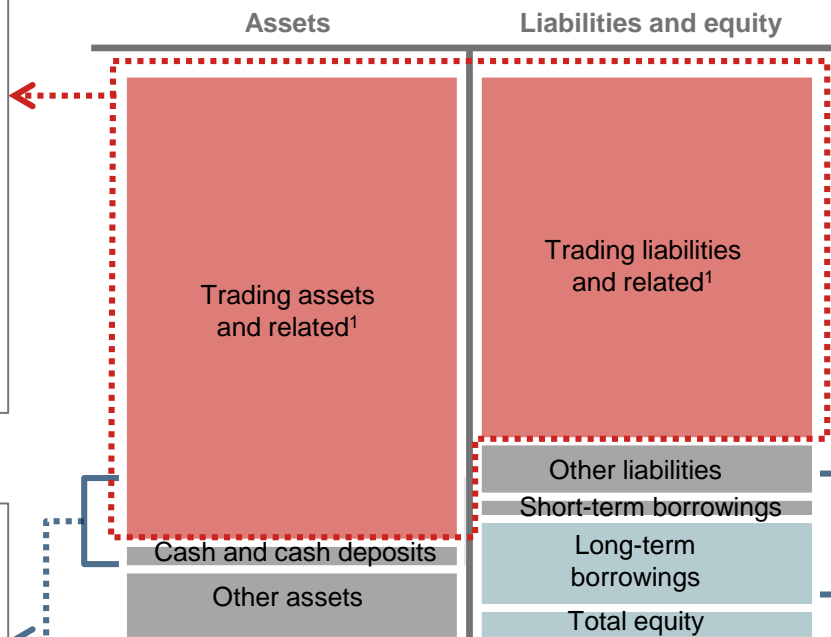

**Balance sheet
(As of March 2020)**

Balance sheet structure

- Highly liquid, healthy balance sheet structure
 - 74% of assets are highly liquid trading and related assets that are marked-to-market and matched to trading and related liabilities through repos etc. (regionally and by currency)
 - Other assets are funded by equity and long-term debt, ensuring structural stability

Liquidity portfolio²

- Liquidity portfolio:
 - Y5.4trn, or 12% of total assets
 - Maintain a high quality liquidity portfolio surplus without the need for additional unsecured funding over a certain period

Unsecured funding²

- 70% of unsecured funding is long-term debt
- Diversified sources of funding

1. Trading assets and related: Reverse repo, securities, derivatives, etc. Trading liabilities and related: Repo, securities loaned, derivatives, etc.
 2. Definition differs from financial disclosures reflecting Liquidity Management's view. Cash and cash deposits portion of liquidity portfolio excludes funds on deposit at exchanges and segregated client funds.
 3. Excludes long-term debt due within one year. Redemption schedule is individually estimated by considering the probability of redemption under certain stressed scenarios.

- This document contains statements that may constitute, and from time to time our management may make “forward-looking statements” within the meaning of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. Any such statements must be read in the context of the offering materials pursuant to which any securities may be offered or sold in the United States. These forward-looking statements are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside our control. Actual results and financial condition may differ, possibly materially, from what is indicated in those forward-looking statements. You should not place undue reliance on any forward-looking statement and should consider all of the following uncertainties and risk factors, as well as those more fully discussed under Nomura’s most recent Annual Report on Form 20-F and other reports filed with the U.S. Securities and Exchange Commission (“SEC”) that are available on Nomura’s website (<https://www.nomura.com>) and on the SEC’s website (<http://www.sec.gov>); Important risk factors that could cause actual results to differ from those in specific forward-looking statements include, without limitation, economic and market conditions, political events and investor sentiments, liquidity of secondary markets, level and volatility of interest rates, currency exchange rates, security valuations, competitive conditions and size, and the number and timing of transactions.
- Forward-looking statements speak only as of the date they are made, and Nomura undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.
