<Incentives and Remuneration>

Implementation of Initiatives to offer Incentives to Directors and Executive Officers

Introduction of a performance-linked remuneration system, introduction of stock option plans and others

Supplementary Explanation

Pursuant to the Compensation Policy of Nomura Group and Compensation Policy for Directors and Executive Officers (Please refer to II.1. "Remuneration of Directors and Executive Officers") set by the Compensation Committee, the compensation of Directors and Executive Officers is composed of base salary, annual bonus and long-term incentive plans, and delivered through fixed and variable components. Depending on the level of payment, a portion of variable compensation may be deferred, and basically are non-cash bonus such as equity-linked compensation (RSU awards, NSU awards).

(1) Yearly Bonus as Performance-Linked Compensation

Among the compensations for the Directors and the Executive Officers which is composed of the Base Salary, the Yearly Bonus and the Long-term Incentive Plan, the Company sets the Yearly Bonus as the Performance Linked Compensation. In relation to the Yearly Bonus, in principal, half of the amount of the Yearly Bonus of the Directors and Executive Officers is paid in cash and the remainder amount is paid by Nomura's shares in multiple years - installments as Deferred Compensation the following year after the Fiscal Year onwards.

(2) Performance Indicator to be used for calculation of the Yearly Bonus

The Nomura Group elects the Return On Equity (hereafter "ROE"), which is set out as the most important performance indicator for the Nomura Group, as the performance indicator to be used for calculation and determination of the Yearly Bonuses for the Directors and Executive Officers. The reason of the election of ROE is to be in line with the management vision and the business strategy of the Nomura Group.

(3) Calculation method of the Yearly Bonus

<Outline of calculation method>

In calculating the Yearly Bonus for the Directors and the Executive Officers, a different calculation method is applied depending on the position.

<Specific calculation method by position>

- With respect to the President and the Group CEO, given the overall responsibility of business execution of the Nomura Group, the basic amount of the Yearly Bonus is calculated based on the level of achievement in actual value against the target value regarding ROE. In addition, Total Compensation (hereafter "TC"), including the Base Salary and the Yearly Bonus, is determined by considering, as needed, qualitative evaluation etc. by the Compensation Committee.
- With respect to the Executive Officers, same as the President and the Group CEO, given the responsibility of business execution for the Nomura Group, an individual ratio is applied to calculate their basic amounts of the Yearly Bonus. In addition, the Yearly Bonus and TC are determined by reflecting the qualitative evaluation etc. such as the performance and contribution for their responsible area.
- With respect to the chairman of the Board of Directors, it is treated in the same matter as the Executive Officers.

<Actual value regarding the performance indicator used for the calculation of the Yearly Bonus for FY 2021>

- Performance Indicator ROE
- Target value 8.0%
- Actual value for FY 2021 5.7%

(4) Yearly Bonus of Director of the audit committee member and Outside Directors

With respect to the Director of the audit committee member is paid in cash only, to exclude equity-linkage of its compensation, so as to keep its independency from business execution. Also, Outside Directors are out of the scope of the Yearly Bonus.

(5) Matters relating to Non-Monetary Compensation (equity-linked compensation)

The Company sets half of the amount of the Yearly Bonus of the Directors and Executive Officers. In principle, equity-linked compensation (Restricted Stock Unit (“RSU”), Notional Stock Unit (“NSU”)) that falls under the Non-Monetary Compensation is used for payment of the amount.

(6) Outline of current Deferred Compensation Awards.

<RSU awards>

- Settled in Nomura’s common stock.
- Graded vesting period is set as three years in principle.
- It is introduced as the Deferred Compensation since the fiscal year ended March 31, 2018.

In principle, it has been granted in May every year.

<NSU awards>

- Linked to the price of Nomura’s common stock and cash-settled.
- Same as RSU awards, graded vesting period is set as three years in principle.
- Following the introduction of RSU as a principle vehicle in 2,018 NSU awards are less commonly used in Nomura.

Same as RSU awards, in principle, it has been granted in May every year.

As stated above, RSU awards have been introduced as a principle vehicle from the fiscal year ended as of March 31, 2018 and replaced with stock acquisition rights and other awards.

(7) Effect of payment of deferred compensation as equity-related compensation

By providing deferred compensation as equity-linked compensation, the economic value of the compensation is linked to the stock price of Nomura, and a certain vesting period is set.

- Alignment of interests with shareholders.
- Medium-term incentives (*) and retention by providing an opportunity for the economic value of Deferred Compensation at the time of grant to be increased by a rise in shares during a period of time from grant to vesting.

* In line with the introduction of RSU, among the equity-linked compensation, as the principal vehicle for Deferred Compensation, in principle, Nomura’s common stock will be paid instead of cash over the three year deferral period from the fiscal year following the fiscal year in which the deferred compensation was granted. Since the number of shares to be paid is determined based on the Nomura’s share price at the time of grant, the increase in Nomura’s share price will increase the economic value of Deferred Compensation at the time of vest. Since the increase in share prices reflects the increase in corporate value, alignment of interest with that of shareholders, in addition to medium-term incentive effects

for the Directors and Executive Officers, will be achieved.

- Promotion of cross-divisional collaboration and cooperation by providing a common goal of increasing corporate value over the medium to long term.

(8) Clawback prescribed in Deferred Compensation

Any voluntary resignation, material modification of the financial statements, material breach of Nomura's internal policies and regulations etc. are subject to forfeiture, reduction or clawback (Conclusion of individual contracts including "clawback clause").

Due to these benefits, the active use of Deferred Compensation is also recommended by regulators in the key jurisdictions in which we operate.

With respect to Deferred Compensation in Nomura, a deferral period is generally three or more years from the following fiscal year or later. This is in line with the "Principles for Sound Compensation Practices" issued by the Financial Stability Board which recommends, among other things, a deferral period of three or more years.

Supplementary Explanation

The Company has two types of SAR plans to maintain incentives for high levels of performance and to recruit talented staff. The exercise price for SAR Plan A is determined based on the market price when issued, and the exercise price of SAR Plan B is 1 yen per share. Following the introduction of RSU awards instead of core deferral awards and all supplemental awards, no new SAR Plan B awards were granted in May 2018 in respect of the fiscal year ended March 31, 2018.

<Compensation Policy of Nomura Group>

The "Compensation Policy of Nomura Group" is as follows:

Nomura Group is establishing its status firmly as a globally competitive financial services group. To support this, we recognize that our people are our most valuable asset. We have therefore developed our Compensation Policy for both executives and employees of Nomura Group to ensure we attract, retain, motivate and develop talent that enables us to achieve sustainable growth, realize a long-term increase in shareholder value, deliver client excellence, compete in a global market and enhance our reputation.

Our Compensation Policy is based around six key themes:

1) Align with Nomura Values and Strategies

- Compensation is designed to support delivery against the broader strategic aims of the Group.

- Levels and structures of compensation reflect the needs of each business line and allow the Group to effectively compete for key talent in the market.
- We develop our staff to support the Nomura values.

2) Reflect Firm, Division and Individual Performance

- “Pay for Performance” is our fundamental principle to motivate and reward our key talent regardless of personal background.
- We manage compensation on a firm-wide basis, taking into account the performance of the Group and supporting our ethos of sustainable growth, collaboration and client service. This enables us to manage strategic investments and still operate market-competitive compensation practices.
- An individual’s compensation is determined by properly reflecting the Group, division and individual performance, ensuring that it is aligned with both the business strategy and market considerations.
- Individual compensation award decisions are underpinned by valid and rigorous performance management processes and supporting systems.

3) Establish Appropriate Performance Measurement with a Focus on Risk

- Compensation is not determined by reference solely to revenues. Risk-adjusted profits are being emphasized in Nomura’s management information and performance systems and processes.
- In addition, qualitative factors such as cross-divisional collaboration, risk management, alignment with organizational values, and compliance are stressed when evaluating performance.
- Performance measurement reflects the business needs, taking account of risk associated with each business. Such risk includes market, credit, operational, and liquidity risk among others.
- In assessing and measuring risk for compensation, input and advice is received from the risk management and finance divisions.

4) Align Employee and Shareholder Interests

- Compensation of Group executives and higher paid employees should reflect the achievement of targets which are in line with the creation of shareholder value.
- For higher paid executives and employees, a part of their compensation is delivered in equity linked awards with appropriate vesting periods to ensure that their interests are closely aligned with those of shareholders.

5) Appropriate Compensation Structures

- The compensation structure reflects our desire to grow and develop our talent. It is merit based, reflecting performance and is regularly reviewed to ensure its fairness.
- For higher paid executives and employees, a significant portion of compensation is deferred, balancing short-term interests with longer-term stewardship of the Group.
- Deferred compensation should be subject to forfeiture or “clawback” in the event of a material restatement of earnings or other significant harm to the business of Nomura.

- The percentage of deferral increases as an employee's total compensation increases. A part of deferred compensation is delivered in mid/long-term incentive plans, such as equity linked awards with appropriate vesting periods.
- Guarantees of bonus/compensation should be allowed only in limited circumstances such as new hiring or strategic business needs, and multi-year guarantees should not be used as a matter of course.
- There should be no special or expensive retirement/severance guarantees for senior executives.
- Nomura will respect all areas in which it operates and will seek to ensure pay structures reflect the needs of the organization as well as regulatory and government bodies.

6) Ensure Robust Governance and Control Processes

- This Policy and any change hereof must be approved by Nomura Holdings' Compensation Committee, a majority of which consists of non-executive outside directors.
- The Compensation Committee of Nomura Holdings decides individual amounts as well as compensation policy for Directors and Executive Officers of Nomura Holdings, in line with this Policy.
- Globally, we institute a review and authorization policy for senior or high-level contracts ensuring consistency with this Policy. This is administered by Human Resources, involves Finance, Risk Management and Regional Compensation Committees and is reviewed by the Executive Managing Board.
- Compensation for employees of risk management and compliance functions is determined independently of other business divisions.
- The Compensation Committee uses market and specialist advisory groups to advise on appropriate compensation structures and levels as necessary.

<Compensation Policy for Directors and Executive Officers of Nomura Holdings, Inc.>

Compensation of Directors and Executive Officers is composed of base salary, cash bonus and long-term incentive plans.

1) Base Salary

- Base salary is determined based on factors such as professional background, career history, responsibilities and compensation standards of related business fields.
- A portion of base salary may be paid in equity linked awards with appropriate vesting periods to ensure that medium to long-term interests of Directors and Executive Officers are closely aligned with those of shareholders.

2) Yearly Bonus

- Yearly bonuses of Directors and Executive Officers are determined by taking into account both quantitative and qualitative factors. Quantitative factors include performance of the Group and the division. Qualitative factors include achievement of individual goals and subjective assessment of individual contribution.
- Depending on the level of bonus payment, a portion of payment in cash may be deferred. In addition, a portion of deferred bonus may be paid in equity linked awards with appropriate vesting periods in lieu of cash to ensure that

medium to long-term interests of Directors and Executive Officers are closely aligned with those of shareholders. Such deferred bonus may be unpaid or forfeited under specific circumstances.

3) Long-term Incentive Plan
