Enhancing risk management and business approach following incident in US

- Exited over 99% of positions (progressed from over 97% as of April 23 and now nearly fully exited)
- Implementing following initiatives and strengthening organization to support international strategy

**Taking swift action**

| Fact-finding investigation | Related departments conducted wide-ranging investigation of facts; Already implemented a number of preventative measures |
| Check and strengthen risk management framework | Conduct comprehensive review by third-party experts on risk management framework for Wholesale and Risk management |
| | Strengthen global risk controls (enhance Risk Management organization, deepen and expand scope of Wholesale risk monitoring conducted by committee comprising CRO/CFO/Head of Wholesale) |

**Looking ahead**

| Management strategy | Continue with management strategy, in particular Wholesale strategy to build out businesses leveraging our global franchise, while enhancing risk management |
| | Further enhance our governance structure in line with global business strategy (increase the number of non-Japanese outside directors) |
| Robust financial position for provision of high-quality services (Mar 2021) | Common Equity Tier 1 ratio of 15.7% (minimum regulatory requirement is 7.51%) |
| | Liquidity portfolio of Y5.7trn (13% of total assets) |

**Detail of actions (all completed or in progress)**

- **Phase 1**
  Initial responses
  - Review of transactions with existing prime brokerage clients (review of large clients completed)
  - Reviewed concentrated positions in non-risk origination businesses (completed)

- **Phase 2**
  Review prime brokerage risk management framework
  - Enhance monitoring of concentrated positions
  - Review margin rate table
  - Enhance management of margin rates for individual transactions (approvals, etc.)

- **Phase 3**
  Comprehensive review of Wholesale risk management framework
  - Comprehensive review of risk management framework (internal review complete, upcoming external review)
  - Enhance Risk Management org.

- **Phase 4**
  Enhance global risk governance
  - Strengthen functions of committees
    - Expand scope of portfolio testing beyond financing to other Wholesale businesses
  - Promote understanding or subjective risk management among front office teams

**Strengthening leadership**

- Appoint new CEO at US subsidiary who has extensive experience in financial services in the US
- Enhance front office and risk management teams
- Strengthened US executive structure

**Future prime brokerage business**

- Prime brokerage is an important client service that supports our overall Equities business including execution, block trades, derivatives and ECM
- Continue to offer prime brokerage services to support other businesses while enhancing risk management
Expanding our scope of business from public to private (1/2)

- Announced management vision of “Achieving sustainable growth by helping resolve social issues” towards FY2024/25
- To achieve this, we are taking strategic steps to expand our scope of business from public to private

Leverage our strengths in the public markets to enhance our presence in private markets

**1. Alternatives**
- Private equity
- Private debt
- Project assets (infrastructure)

**Digital bonds, security token offerings**

**Non-financial services**

**2. New investor base**
- New needs of existing clients
- Startups (unlisted companies)

**3. Provide customized services and solutions privately to each client**
- Digital
- Bespoke

**Clients**
- Mainly individuals, institutional investors, listed companies
- Mainly face-to-face high touch services

**Products and services**
- Listed products and public offerings
- Private placements
- Current business (centered on public markets)
Expanding our scope of business from public to private (2/2)

- Continue to strengthen existing businesses with competitive advantage
- Actively allocate resources to new businesses including private with a view to the future

Looking back on past year

- Seeing results from business platform rebuild launched two years ago and firmwide cost reduction program
- In May 2020, announced FY2024/25 management vision, now implementing strategic initiatives to expand our scope of business from public to private

Core business initiatives

- Rebuild business platform
  - Retail
    - Channel reformation realignment
    - Branch office consolidation
  - Wholesale
    - Review of business portfolio
    - Allocate resources to core products
- Total cost reductions of Y140bn

Expand business from public to private

- Announced management vision towards FY2024/25
- Established Content Company
  - Set up CIO Group for full-scale entry into high value-added advisory model
  - Alliance with Wolfe Research, a US equity research boutique
- Established Investment Management division
  - Agreed on a strategic alliance with SPARX Group
  - Establish Nomura SPARX Investment, Inc., a listed investment entity that invests in unlisted companies

Lay foundation to move to “next stage”

Approaches by segment taken hold
- Establishment of hybrid model effectively blending face-to-face and non-face-to-face approaches
- Improve competitiveness of core products
- Build global franchise capable of monetizing favorable market conditions
Risk money flows via public markets

Connecting investors and issuers through capital markets and providing liquidity; Support the sound flow of risk money

Retail client assets up 1.8x in past 10 years

Establishment of Investment Management division

- Announced establishment of Investment Management division in March 2021
- Bring together Nomura Group companies to provide investment management opportunities and solutions in both public and private markets

**Aim of division**

- Respond to increasingly diverse investment management needs of clients amid prolonged low interest rate environment
- Bring together Group wide expertise from traditional assets to private equity and other alternatives to boost added value

**Provide investment products**

- Stable revenue expansion,
- Businesses with light capital burden

**Provide balance sheet**

- Own capital,
- Capital intensive businesses

---

**Main companies**

- Nomura Corporate Research and Asset Management Inc.
- Nomura Capital Partners Co., Ltd.
- Nomura Mezzanine Partners Co., Ltd.
- N-MEZ
- Nomura Babcock & Brown Co., Ltd.

**Full capabilities of Nomura Group**

- Access to Group’s high-quality, broad client base
- Operational efficiencies
- Sophisticated divisional strategies

- Groupwide collaboration to provide investment opportunities and solutions to clients (retail clients and institutional investors in Japan and abroad)
- Standardize internal processes
- Drive efficiencies through digital efforts
- Centralize division strategy under dedicated department
- Ensure independence of each entity. Expand product offering with competitive performance backed by expertise and innovation of each entity under the division

---

1. Main Group companies under Investment Management.
Overview of digital transformation

**Digital improvements**
- Transforming existing client user interface and experience
- Improve services
- More efficient, sophisticated internal processes

**Digital transformation**
- New business model
  - Deliver completely new value
- Develop new client base
  - Uncover new revenue sources

**Promoting digital transformation**

**Organizational initiatives**
- Initiatives led by businesses and companies for digital improvement and transformation
  - Wholesale Digital Office
  - Global Markets Digital Strategy Dept.
  - Innovation Lab (research on innovative technologies in Asset Management)
  - Future Innovation Company, etc.
- Appointed CIO in each division to consolidate infrastructure aligned to requirements of each business, clarified cross-divisional functions

**Development of digital talent**
- Provide learning opportunities for new technologies such as AI mainly in Wholesale, create cross-divisional organization of new technology experts to drive internal initiatives
- Introduce systematic development program for Retail IT talent

**Recruiting digital talent**
- Step up recruitment of IT talent with knowledge of new technologies
- Recruit digital transformation talent into Future Innovation Company to collaborate with businesses

**Environment to implement**
- Cloud strategy
- Data strategy
- Collaboration platforms
Initiatives and successes of existing businesses, delivering higher added value to clients
Business growth: FY2022/23 KPI and KGI targets

- Revised some FY2022/23 KPIs and KGI based on progress to end FY2020/21 and establishment of Investment Management division

Results to FY2020/21 vs. FY2022/23 targets

1. Wholesale net revenue divided by modified risk-weighted assets (daily average for the accounting period) used by Wholesale. Modified risk-weighted assets (daily average for the accounting period) is a non-GAAP financial measure and is the total of (i) risk-weighted assets (as calculated and presented under Basel III) and (ii) an adjustment equal to the regulatory adjustment to common equity tier I capital calculated and presented under Basel III divided by our internal minimum capital ratio target.

2. Investment Management business income does not include investment income (ACI-related gain/loss (includes gain/loss on market valuation of ACI shares, interest payments on funds used to acquire ACI shares and dividends received from ACI) and gain/loss on funds of investment companies under Investment Management such as Nomura Capital Partners and investment securities under Investment Management).
## FY2024/25 management targets

- **Expand business into private areas in addition to public markets to increase income from existing businesses and new areas**

### Achieving ROE target

<table>
<thead>
<tr>
<th>FY2022/23 Target (As of May 2020)</th>
<th>FY2022/23 Target (As of May 2021)</th>
<th>FY2024/25 Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three segment income before income taxes (KGI)</td>
<td>Y280bn</td>
<td>Y320bn</td>
</tr>
</tbody>
</table>

- **1** Raising FY2022/23 income before income tax target (KGI)
  - Improve underlying Wholesale profitability
    - Income before income taxes: +Y30bn
  - Consolidate management of assets from traditional to alternatives
    - Income before income taxes: +Y10bn

- **2** Income growth to FY2024/25
  - Enhance private and low risk businesses for institutional investors and corporates
  - Reinforcing Private Markets
    - >40% growth over next 2-3 years
  - Scaling-up Advisory business
    - 50%+ growth over next 3 years
  - Growth in International Wealth Management
    - Targeting 5x AuM
  - Consolidate investment management functions for existing business growth and pursue inorganic strategies
    - Income before income taxes: +Y20bn
  - Collaborate with other companies (regional financial institutions, LINE, etc.) to grow client base and generate different types of fees
  - Grow digital businesses (existing and new)
Stronger revenues in each core business segment, and marked improvement in income before income taxes driven by continued focus on cost reductions

**Approx. US$1bn**

- **Direct cost reduction**
  - Pay for performance
  - Realignment of business portfolio
  - Optimization of business promotion expenses, etc.

- **Indirect cost reduction**
  - Lower indirect costs in line with business portfolio realignment
  - Streamlined operations related to indirect cost

**Reduction in variable cost linked to revenues, etc.**

**Change to Instinet accounting policy (US$0.2bn)**

**Run rate**

- **Direct cost**
  - Y30bn
  - 0.8

- **Indirect cost**
  - Y15bn
  - 0.3

- **Total**
  - Y30bn + Y15bn = Y45bn

**Variable cost corresponding to revenue exceeding assumed revenue for run rate costs (US$5bn), strategic investments, loan loss provisions and other one-off expenses**

- **Direct cost**
  - US$1bn
  - 4.4

- **Indirect cost**
  - US$0.3bn

- **Total**
  - US$1bn + US$0.3bn = US$1.3bn
Continued focus on cost control

Measures to lower the cost income ratio

- **Revenue expansion**
  - Develop business leveraging high market share of core products and global collaboration; improve underlying profitability
  - Create a new business model through combined digital and people approach and collaborate with third parties to grow our client base
  - Expand business in private areas in addition to public markets

- **Cost control**
  - Continue necessary investments to build out business towards achieving the management vision
  - Promote use of digital technologies in Corporate
    - Transform operating model while building important foundation of agility and efficiency
    - Support operating efficiency and revenue growth
      - Lessen client onboarding time and reduce maintenance costs
      - Eliminate manual processes to promote efficiency, cut costs, etc.
  - Implement real estate and offshore center strategies
  - Consolidate branch administrative operations, enhance retail sales support and transaction management and promote higher productivity

---

1. Actual total for Retail, Asset Management and Wholesale from FY2018/18 to FY2020/21. FY2022/23 is cost income ratio on assumption of a certain level of total revenues for Retail, Wholesale and Investment Banking.
Maintain appropriate capital ratios and aim for long-term ROE growth through optimal capital allocation.

- Consolidate payout ratio of 30% as key indicator based on half year consolidated performance.
- Aim for total shareholder return ratio including share buybacks of at least 50%.

Shareholder return policy:
- CET1 ratio: Targeting at least 11%.
- Risk assets expected to increase when Basel 3 fully implemented in 2023; Plan to minimize impact by realigning portfolio and revising models.

Dividend amount
- Share buyback amount
- Shareholder return level of 50%
- Total shareholder return ratio¹

- Invest for growth to realize management strategy of expanding scope of our business from public into private markets.
- Carefully select areas where returns outstrip cost of capital.

Reward shareholders in line with shareholder return policy while maintaining appropriate capital levels and ensure balance between regulatory developments and investing for growth.

CET1 ratio: Targeting at least 11%.
Risk assets expected to increase when Basel 3 fully implemented in 2023; Plan to minimize impact by realigning portfolio and revising models.

1. Including allocations for stock options.
Following shareholders’ meeting in June 2021, aim for more advanced governance in line with global operating environment

History of enhancing governance system

**2001**
- Shifted to holding company structure and listed on NYSE
- Established Advisory Board where outside experts regularly discuss group management

**2003**
- Adopted Company with Committees, etc. structure
- (now known as a Company with Three Board Committees)

**2010**
- Two Outside Directors (one female) joined from overseas and Board of Director comprised of a majority of Outside Directors

**2015**
- Established "Outside Directors Meetings" to discuss matters related to business and corporate governance regularly

**2019**
- All three committees (Nomination, Audit, Compensation) have Outside Director as Chairman

New governance system

- Explored how to further enhance governance in line with global operating environment on back of increasing in international business proportion in business portfolio
- Researched and validated best approach for Board of Directors for a global financial company, and to further enhance governance conducted search and selected Director nominees with the required background needed for management oversight

4 new Outside Director nominees

- 2 nominees with deep knowledge of US financial industry, macro economics and regulatory environment
- 1 nominee from Asia with expertise in UK and Hong Kong legal systems
- 1 Japanese corporate executive with experience in running global businesses and sustainability

Composition of Board of Directors after 2021 shareholders’ meeting (plan)

- **Outside Directors**
  - Outside: 8 (67%)
- **Female directors**
  - Female: 3 (25%)
- **Non-Japanese directors**
  - Non-Japanese: 4 (33%)
Towards the realization of a sustainable society

- Deliver solutions to a broad range of stakeholders leveraging diverse group functions
- Integrate sustainability into management strategy, and realize growth of clients, wider society and Nomura Group

### Social issues

<table>
<thead>
<tr>
<th>Climate change</th>
<th>Increasing social inequality</th>
<th>Food problem (Agriculture and food)</th>

This document is produced by Nomura Holdings, Inc. ("Nomura").

Nothing in this document shall be considered as an offer to sell or solicitation of an offer to buy any security, commodity or other instrument, including securities issued by Nomura or any affiliate thereof. Offers to sell, sales, solicitations to buy, or purchases of any securities issued by Nomura or any affiliate thereof may only be made or entered into pursuant to appropriate offering materials or a prospectus prepared and distributed according to the laws, regulations, rules and market practices of the jurisdictions in which such offers or sales may be made.

The information and opinions contained in this document have been obtained from sources believed to be reliable, but no representations or warranty, express or implied, are made that such information is accurate or complete and no responsibility or liability can be accepted by Nomura for errors or omissions or for any losses arising from the use of this information.

All rights regarding this document are reserved by Nomura unless otherwise indicated. No part of this document shall be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior written permission of Nomura.

This document contains statements that may constitute, and from time to time our management may make “forward-looking statements” within the meaning of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. Any such statements must be read in the context of the offering materials pursuant to which any securities may be offered or sold in the United States. These forward-looking statements are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside our control. Actual results and financial condition may differ, possibly materially, from what is indicated in those forward-looking statements. You should not place undue reliance on any forward-looking statement and should consider all of the following uncertainties and risk factors, as well as those more fully discussed under Nomura’s most recent Annual Report on Form 20-F and other reports filed with the U.S. Securities and Exchange Commission (“SEC”) that are available on Nomura’s website (https://www.nomura.com) and on the SEC’s website (https://www.sec.gov); Important risk factors that could cause actual results to differ from those in specific forward-looking statements include, without limitation, economic and market conditions, political events and investor sentiments, liquidity of secondary markets, level and volatility of interest rates, currency exchange rates, security valuations, competitive conditions and size, and the number and timing of transactions.

Forward-looking statements speak only as of the date they are made, and Nomura undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

The consolidated financial information in this document is unaudited.
