## Assets under management (net)<sup>2</sup>

(trillions of yen)

■ Investment trust business ■ Investment advisory business

## Key points

- Net revenue: Y26.8bn (-21% QoQ; +5% YoY)
- Income before income taxes: Y11.4bn (-40% QoQ; +13% YoY)
  - Revenues declined from last quarter which included a significant contribution from American Century Investments (ACI) related gain/loss, but asset management fees increased
  - AuM reached record quarterly high of Y55.7trn, lifted mainly by market factors

### Investment trust business

- Ongoing inflows into ETFs drove ETF AuM to record high (Y21.5trn at end Sep, market share<sup>3</sup> of 45%)
- Continued inflows into bank channel and defined contribution (DC) plan funds
- Solid sales of ESG product (“Nomura BlackRock Circular Economy Stock Fund”) newly launched in August contributed to inflows (AuM of Y96.8bn at end Sep)

### Investment advisory and international businesses

- In Japan, we saw a decline and net redemptions as public pension fund portfolio rebalancing led to redemptions of Japan equity value funds
  - Won new mandates for alternatives (private equity, infrastructure funds, etc.) and Japan equities
- Internationally, we booked inflow into UCITS<sup>4</sup> bond fund (Global Dynamic Bond Fund<sup>5</sup>) and high yield products

## Steady growth in AuM in funds for DC plans

- ✓ DC market continues to grow on back of systemic shift from defined benefit (DB) pension plans to defined contribution (DC) plans
- ✓ Products matched to client risk appetite that support asset formation over long term contributed to AuM growth; Responding to diverse client needs with products like Japan stock ESG fund for DC plans launched in May
- ✓ AuM in funds for DC plans doubled in 4.5 years and market share has increased driven by ongoing inflows

 2. Wholesale net revenue (annualized) divided by modified risk-weighted assets (daily average for the accounting period) used by Wholesale. Modified risk-weighted assets (daily average for the accounting period) is a non-GAAP financial measure and is the total of (i) risk-weighted assets (as calculated and presented under Basel III) and (ii) an adjustment equal to the regulatory adjustment to common equity tier I capital calculated and presented under Basel III divided by our internal minimum capital ratio target.  
 3. Since reporting under US GAAP started in the year ended March 2002.

# Wholesale: Global Markets

## Net revenue

(billions of yen)

## Key points

- Net revenue: Y192.3bn (-17% QoQ; +45% YoY)
  - Although declining from record<sup>1</sup> previous quarter, net revenue was at record high for 2Q (third best quarter); Amid market volatility driven by US elections, UK/EU trade talks and monetary policy outlook, we continued to provide our clients with liquidity and monetized demand for portfolio rebalancing by investors

### Fixed Income

- Net revenue: Y104.6bn (-32% QoQ; +35% YoY)
  - Although Rates slowed from very strong 1Q, revenues remained solid with contributions from Agency Mortgages
  - Credit, Securitized Products and FX/EM also booked steady revenues

### Equities

- Net revenue: Y87.6bn (+13% QoQ; +58% YoY)
  - Derivatives revenues continued to climb from strong 1Q driven by Americas
  - Cash Equities revenues remained strong

## FY2020/21 2Q net revenue by region

- Americas: In Fixed Income, Rates revenues remained solid driven by strong performance in Agency Mortgages, while Securitized Products also had a solid quarter; Equities revenues grew substantially on a robust performance by Cash Equities and strong growth in Derivatives
- EMEA: Fixed Income normalized from strong 1Q, but Rates performance remained strong driven by European government bonds, and FX/EM revenues increased
- AEJ: In Fixed Income, FX/EM revenues slowed, while Credit remained strong; Derivatives contributed to an uptick in Equities revenues
- Japan: Fixed Income reported a slowdown in Flow Rates, but Credit and Structured Rates had a strong quarter on demand for high-yield products; In Equities, Cash Equities revenues grew, while Derivatives performance normalized from strong 1Q

## RWA and CET 1 capital ratio<sup>3</sup>

## Level 3 assets<sup>2</sup> and Net Level 3 assets/Tier 1 capital

1. Net leverage: Total assets minus securities purchased under agreements to resell and securities borrowed, divided by Nomura Holdings shareholders' equity.  
 2. September 2020 is preliminary.  
 3. CET 1 capital ratio is defined as Tier 1 capital minus Additional Tier 1 capital divided by risk-weighted assets.  
 4. Tier1 capital divided by exposure (sum of on-balance sheet exposures and off-balance sheet items).  
 5. Daily average for each quarter.

# Funding and liquidity

## Balance sheet structure

Balance sheet  
(As of September 2020)

- Highly liquid, healthy balance sheet structure
  - 75% of assets are highly liquid trading and related assets that are marked-to-market and matched to trading and related liabilities through repos etc. (regionally and by currency)
  - Other assets are funded by equity and long-term debt, ensuring structural stability

## Liquidity portfolio<sup>2</sup>

- Liquidity portfolio:
  - Y6.3trn, or 15% of total assets
  - Maintain a high quality liquidity portfolio surplus without the need for additional unsecured funding over a certain period

## Unsecured funding<sup>2</sup>

1. Trading assets and related: Reverse repo, securities, derivatives, etc. Trading liabilities and related: Repo, securities loaned, derivatives, etc.  
 2. Definition differs from financial disclosures reflecting Liquidity Management's view. Cash and cash deposits portion of liquidity portfolio excludes funds on deposit at exchanges and segregated client funds.  
 3. Excludes long-term debt due within one year. Redemption schedule is individually estimated by considering the probability of redemption under certain stressed scenarios.
