

## Nomura Publishes TCFD Report 2021

**Tokyo, July 15, 2021**—Nomura Holdings, Inc. today announced that it has published the Nomura Group TCFD<sup>1</sup> Report 2021, outlining the firm's most recent initiatives on climate change related risks and opportunities and sustainability solutions.

The report includes a credit exposure analysis outlining the metrics used to measure credit risk exposure in the areas of the firm's portfolio most sensitive to carbon transition, as well as various forms of scenario analysis used to capture risks not readily identified by other risk management methods.

The report also provides information on key financial services offered by the firm to help resolve climate change and social issues amid progress toward decarbonization.

Nomura committed to support the Task Force on Climate-related Financial Disclosures (TCFD) in 2018, and has enhanced information disclosure in line with the TCFD recommendations.

As part of its aim to "Drive Sustainability," Nomura Group actively engages in ESG and SDG related activities. Nomura will continue to strengthen its efforts to combat climate change and enhance disclosures to further contribute to the realization of a more sustainable future and help resolve issues affecting society.
