Nomura Report 2016 Now Available

Nomura Holdings recently issued the Nomura Report 2016, an integrated version of the firm's Annual Report and Citizenship Report.

Nomura Group marked its 90th anniversary in December 2015. In this report, we have focused on how we will grow sustainably together with our stakeholders over the next 10 years by presenting our corporate philosophy and vision and our strategy to increase our medium- to long-term corporate value through various perspectives.

We hope that this integrated report helps readers gain a broader understanding of our activities to support social sustainable development and aim to grow and develop together with our stakeholders, including our clients and shareholders, as Asia's global investment bank.

You can download the Report [here](#).
